

Application to become a registered Carrier with Openfield

Thank you for your interest in becoming an Openfield registered Carrier.

We use a large number of bulk tipper operators across the UK for the movement of grain, but are always interested in talking to new Carriers that can add something to our operations in terms of cost, quality and service. We seek forward thinking businesses who genuinely want to help us to improve the grain supply chain and move the industry forward. In return we hope to give our selected partners greater business security and consistency and ultimately help them become more profitable and share in the successes.

Requirements

As a basic requirement of all new Carriers taken on, you must be TASC/GTAS certified. In order for us to quickly and effectively contact large numbers of Carriers in the event of any issues or new requirements, or simply to send out updates and information we also insist that we can contact you electronically by email as required.

Documentation

In order to get you approved and set up for work with Openfield we require the following documentation to be completed and returned to us:

1. Openfield New Carrier Details form: Provides some basic information to help us understand more about your business, as well as providing your contact details. Blank forms can be found at www.openfield.co.uk/farmers/grain
2. 2 x Self-billing agreements: All Openfield sub-contracted transport is self-billed. We need your written acceptance of this for VAT purposes. The two blank agreements can also be found on the website.
3. BACS Payment Authorisation
4. Copy of TASC/GTAS certificate
5. Copy of O-License
6. Copy of Motor Insurance
7. Copy of Goods in Transit Insurance

Please send the information to the following address:
